

Practice Improvement Network

PIN Components

1. Member Communication
 - Learn from the pilots
 - Resources
 - Make your practice your medical home
2. CME Community
 - Clinical metrics
 - Practice management
 - Peer problem solving
3. Ambassadors
 - Leadership
 - Consultation
4. Small Practice Pilot
 - Matching funds
 - Shared Personal Coach
 - Peer support
 - Webinars

Working together to perfect your medical home

Leverage the experience, expertise and resources of your Academy to build **your medical home**.

IAFP will help practices capture new revenue opportunities that are now available. The Practice Improvement Network (PIN) is a two year commitment by IAFP to our members in all practice settings to make improvements and reap the rewards. Members can join the small practice pilot, earn clinical and practice management CME, or simply follow the journey through regular IAFP member communications from the "Network."

You'll be ready when medical homes become mainstream.

Practice Improvement Network Goals

- Coordinated and Comprehensive Care with a team-based approach
- Patient safety
- Payment reform that rewards primary care
- Eliminate duplication and waste
- Measureable reported improved outcomes
- Patient records available at the point of care
- Lower the cost burden tied to preventable illness and chronic diseases
- Timely preventive care services
- Reduced disparities
- Access to primary care
- A personal physician for all patients
- Patient and family education partnership

I want to join the Network!

I am interested in:

- CME Opportunities
- Learning more
- Applying for the small practice pilot

Practice Improvement Network COMPONENTS

1. IAFP member communications—the statewide network

All members will be able to follow the Practice Improvement Network from these Academy sources

- *Illinois Family Physician* newsletter, every two months at www.iafp.com/newsletter
- The PIN section of www.iafp.com with resources, links and updates
- Learn from the small practice pilot project (see #4 below) experiences from and upcoming monthly pilot project update newsletter with tips and feature

2. CME—Continuing Medical Education Channel

Tune in for upcoming CME that meets your needs

- Self study modules
- Opportunity for live CME programs in your neighborhood
- Clinical and practice management topics
- Webinars

3. Ambassadors—your local news

IAFP members who are recognized medical homes, or working towards that goal, are ready and willing to lead their local professional community.

- Live and local perspective from someone you already know
- Group problem solving and solution building to fit your medical home development
- Leverage local expertise or request a guest speaker from the Network

4. The Small Practice Pilot Program— your “Direct TV”

- Open to practices of up to 8 primary care providers
- Must have at least one IAFP member in the practice
- IAFP will match small practice investment dollar for dollar up to \$5,000 over an 18-month period
- Complete assessments and get personal recommendations from an IAFP-approved consultant that you select as your personal coach to guide your Practice Improvement process
- Group webinars with your coach and fellow pilot practices to learn and grow together
- Monthly *Pin Points* newsletter customized with news and information from the pilots for the pilot practices
- **Limited to 30 total practices in Illinois**
- **Request application at iafp@iafp.com and submit via e-mail by March 31, 2011**
