

July 10, 2001

Dear Dr. :

I wanted to contact you at this time to seek your assistance as I begin my search for a Family Practice opportunity here in the Chicagoland area. As you may observe from my attached Curriculum Vitae, I'm completing my Family Practice Residency here at the University of Illinois/Chicago Program. The breadth and scope of our program has given me a broad base of experience and solid exposure to the practice of Family Medicine.

I believe my specific strengths include:

- A strong fund of clinical knowledge, with an ability to work as a true team member. Based upon my upbringing and background, I'm known as an individual with a very strong work ethic, but an individual who provides a genuine sense of tenderness and respect provided in the care I give each individual.

Please refer to my attached references to provide information from those physicians most familiar with my training and capabilities.

Because of our strong affinity for the area, my husband and I have made the decision to concentrate my practice search efforts exclusively in the Chicagoland area. It is my intention to begin a practice either in a traditional FP setting, or in a situation encompassing only office based medicine and/or Urgent Care, at the conclusion of my Residency in June of 2002.

Based upon my education, training, and work ethic, I am confident that I can make a strong contribution to your organization. I would welcome the opportunity to speak/meet with you.

Sincerely,
