

Vaccine Management

Education

[Vaccine Management for the Primary Care Provider: What You Need to Know](#)

Presented by: Michael Hanak, MD, Assistant Professor, Department of Family and Community Medicine, Rush University Medical Center

Learning Objectives:

1. Describe the components of a vaccine management plan
2. Explain proper vaccine storage practices
3. Describe vaccine administration protocol (VIS statements, VAERS reporting)
4. Locate resources relevant to current immunization schedules and practices
5. Locate vaccine resources for Illinois providers.
